

800m Pesticide Pigment Printable Water Soluble Pouches

Our Product Introduction

for more products please visit us on pvawatersolublebag.com

Basic Information

- Place of Origin: China
- Brand Name: Ciyu
- Certification: FDA,SGS, TDS
- Model Number: Ciyu60001
- Minimum Order Quantity: 10Rolls
- Price: US \$0.32-0.80/ Square Meter
- Packaging Details: Carton+Pallet
- Delivery Time: 10-15days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 6,000 kgs per day

Product Specification

- Material: PVA
- Type: Water Soluble Film
- Processing Type: Blow Molding, Casting
- Length: 100-800m
- High Ligth: PVA Film Roll, Water Soluble Plastic Film
- Usage: Packaging Film
- Feature: Water Soluble
- Width: 200-1600mm
- Thickness: 35-70microns
- Highlight: **800m Water Soluble Pouches, Printable Water Soluble Pouches, 800m Water Soluble Plastic Film**

Product Description

Pesticide Pigment Printable Pva Film Water Treatment Agent Packaging Pouches

Packaging Film / Bag

A water soluble, biodegradable polyvinylalcohol (PVA) film, ideally suited for many packaging applications. Water soluble PVA bags, sachets or pouches created from this film, provide a convenient, safe and economical delivery system for a wide range of products including detergents and cleaners, degreasers, concrete additives, pigments, biocides, water-treatment products, agricultural products, and others.

Liquid Detergents

This application hinges on the principle of using pva film packaging to deliver unit dosage amounts of liquid detergent products. Active concentrate of liquid detergent ingredients is packaged in pva films. Our film is formulated in a manner, which makes it compatible with the liquid detergent for purposes of packaging, shipping, storage and usage.

Laundry Bags

pva film laundry bags are used in hospitals to minimize the contact hospital workers have with contaminated clothing and bedding. Dirty items are put into these special bags, which are then placed directly into the washing machine. Because pva film is soluble in water, the bags dissolve and are washed down the drain with the dirty water. At the completion of the washing cycle, the clean clothes are removed from the washing machine.

Water-soluble film technical data:

Test Item		Standard Index
Tensile Strength(MPA)	MD	35.4
	TD	40.0
Tensile Elongation(%)	MD	226
	TD	387
Young's Modulus	MD	91.1
	TD	95.1
Moisture Content(%)		5.5
Plasticizer Content(%)		14.0
