20 Micron Thickness PLA Plastic Biodegradable Poop Bags Custom Designed

Product Type:	PLA Pet Waste Poop Bags
Material:	PLA
Size:	Customized
Feature:	Eco-Friendly
Model Number:	Customized
Color:	Customized
Usage:	Pet

Product Description

A.

compostable dog doop bag made from GM free cornstarch, with corn starch as its main material, is convenient to use, and is also environmental-friendly.

B.

After using our compostable dog doop bag, buried them into landfill or in a compostable environment, they will degradable into H₂O and CO₂ within 3 month, totally nontoxic, finally become into organic fertilizer and back to nature.

C.

All of our compostable dog poop bag are certified with DINCERTCO international EN13432, OK compost and ASTM D-6400

D.

Most people believe that biodegradable is synonymous to compostable. However, this is not the case. Compostable is more earth-friendly than biodegradable. In the case of plastics, the American Society for Testing and Materials (ASTM) said that compostable plastics must be able to break down with the same rate as paper. Its end products would be water, carbon dioxide and biomass.
