## Product Description

### 1500m Polyvinyl alcohol dissolvable plastic film water soluble seed tape for agriculture

#### Product Description

With the help of our experts, we are offering a gamut of **Water Soluble Seeds Tapes**. These products are used along with the water-soluble PVA films to pack seeds in tape-shape at regular intervals. When the offered tapes are buried in the earth, they germinate at the regular intervals that results in saving the labor of the cull. The offered tapes can be used to simplify the work by making the seeds of the lawn and flowers adhere to water-soluble PVA film and then making them into sheet.

#### Features:

Prevent the seeds from being blown away by wind and eaten by animals  
Keep moisture in the sand  
High tear resistant.

#### Specification:

1. Size  
Roll film  
Thickness( $\mu\text{m}$ ) 25, 35, 45, 75  
Width (mm)  $\leq 1000$   
Length (m) 100~1000  
The thickness, width of the film can be produced as per customer's requirements if the order quantity more than 10000 meters.
2. Appearance: clear, embossing.

#### FAQ:

- (1) How long is the lead time?  
Normally within 15-20 days after deposit received.
- (2) How to control your quality?  
A complete quality guarantee system: IQC  $\rightarrow$  FAS & Self checking for each producing progress  $\rightarrow$  OQC.
- (3) How to guarantee punctual shipment for my order?  
We give priority to export orders and keep updating progress from production to delivery.
