

Flushable Poop Bags Compostable Biodegradable Dissolve In Water

Our Product Introduction

for more products please visit us on pvawatersolublebag.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Ciyu
- Certification: ASTM D6400
- Model Number: CY-E003
- Minimum Order Quantity: 2000rolls
- Price: USD0.35/per roll
- Packaging Details: master box/carton
- Delivery Time: 5-8workdays
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 2000rolls/3days

Product Specification

- Material: 100% PVA
- Brand: Ciyu
- Package Size: 6 X 2.5 X 2.3 Inches
- Colour: White
- Highlight: **Compostable Flushable Poop Bags,
Biodegradable Flushable Poop Bags,
Flushable Water Soluble Poop Bags**

Product Description

Flushable Poop Bags Compostable Biodegradable For Better Environment Dissolve In Water

Technical Details

Manufacturer	Ciyu
Item Weight	5.6 ounces
Package Dimensions	6 x 2.5 x 2.3 inches
Item Package Quantity	1
Batteries Required?	No

Product description

When you have pet waste to clean up in your house, you can now easily keep your home clean and stink-free. Just place pet waste in our bag and flush it away! No need to leave it in your inside trash can that stinks up your home, and free yourself from the hassle of going outside every time there's a waste bag to dispose of. With this water soluble poop bag, our bags make clean-up easy and quick. This is not your ordinary waste bag - it transcends regular biodegradable bags that break down in our landfill, our bags dissolves in your septic system leaving only traces of H₂O and CO₂. The same environmental-conscious property that makes bags dissolve in water also makes our bags compostable in your garden or compost. Again, once disintegrated, nothing but water and carbon dioxide are left behind.

NOTE: Testing the dissolvability in clear water will not work. This bag will start to disintegrate in the septic tank where there's optimal temperature, humidity, pressure, and microbes (from the waste). Using clean water to test the dissolvability of the bag will just make the PVA material slippery to the touch.
