Product advantages:

Cold Water Soluble Nonwoven Fabric(Cold Water Soluble Paper) is mainly used for Top-grade Underwear, Model Clothes and some Special Fabrics. It meets the needs of all kinds of embroidery crafts as well. With the well flexibility and tensile strength, it keeps embroidery the same after attached to the bottom of embroidery.

It dissolves in the 20°C water within 8-20 seconds, which makes sure that the fabrics and threads discolor after dissolving. The high-quality embroidery designs stand out by using our Cold Water Soluble Paper.

It is environmentally friendly as well after dissolving without any residues or toxicants.
