

Cold Water Soluble PVA Film Biodegradable High Tensile Strength for Pesticide Fertilizer and Seed Packaging

Our Product Introduction

for more products please visit us on pvawatersolublebag.com

Basic Information

- Place of Origin: China
- Brand Name: Ciyu
- Certification: MSDS, TDS
- Model Number: Ciyu20001
- Minimum Order Quantity: 15rolls
- Price: USD4300/500KG
- Packaging Details: Carton
- Delivery Time: 10-15days
- Payment Terms: L/C,T/T
- Supply Ability: 6,000 kgs per day

Product Specification

- Type: Stretch Film
- Feature: Water Soluble
- Material: PVA
- Application: Package,Agriculture,Powder

Product Description

Cold Water Soluble Film PVA Film For Pesticide Fertilizer And Seed Packaging

Polyvinyl alcohol is a water-soluble and biodegradable synthetic polymer. Cold Water Soluble PVA Film is widely used for packaging applications and dissolves completely in water. In the agriculture sector, PVA is specifically used for packaging herbicides or small doses of pesticides that could potentially harm humans.

Product Name	PVA Soluble Water Film
Feature	Water solubility
Usage	Packaging, Agriculture, Powder
Size	By Request

Film Package

① Batching

② Waterproof Package
(Aluminum Foil+PE bag)

③ Carton Package

④ Palletizing

Features

Water solubility: 100% soluble in contact with water

Environmental protection: PVA Film does not leave any waste, sediment, or residue

Safety: PVA Film prevents contact of hazardous chemical products with human health

High tensile strength: PVA Film's tear strength is superior to all other types of thin films

► Testing Equipments

Our Advantages

Our pursuit: We are dedicated to providing customers with high quality PVA Film at competitive prices

OEM Accepted: Customized design and logo are available

Efficient Service: 24 hours for contact. Welcome your inquiries

Strict Quality Control: We have professional technicians and a complete inspection system

• ENTERPRISES CERTIFICATES
