

Cold Water Soluble Biodegradable PVA Film Roll with High Tensile Strength for Detergent Packaging

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Ciyu
- Certification: SGS,MSDS
- Model Number: Ciyu40001
- Minimum Order Quantity: 15Rolls
- Price: USD4300/500KG
- Packaging Details: Carton+Pallet
- Delivery Time: 10-15days
- Payment Terms: L/C,T/T
- Supply Ability: 6,000 kgs per day

Product Specification

- Material: PVA
- Water Solubility: 100% Soluble
- Tear Strength: High

Product Description

Efficient Cold Water Soluble PVA Film Roll for Detergent Packaging

Polyvinyl alcohol is a water-soluble and biodegradable synthetic polymer. Cold Water Soluble PVA Film is widely used for packaging applications and dissolves completely in water. Apart from packaging, PVA is used in the agriculture sector for packaging herbicides or small doses of pesticides that could be harmful to humans.

| Product Name | PVA Soluble Water Film |
| Feature | Water Solubility |
| Usage | Packaging, Agriculture, Powder |
| Size | By Request |

Key Features

Film Package

① Batching

② Waterproof Package
(Aluminum Foil+PE bag)

③ Carton Package

④ Palletizing

Water Solubility: 100% soluble in contact with water

Environmental Protection: PVA Film does not leave any waste, sediment, or residue

Safety: Prevents contact of hazardous chemical products on human health

High Tensile Strength: PVA Film's tear strength is superior to all types of thin films

Our Advantages

► Testing Equipments

Quality Commitment: Dedicated to providing customers with high-quality PVA Film at competitive prices

OEM Accepted: Customized design and logo options available

Efficient Service: 24-hour contact support for all inquiries

Strict Quality Control: Professional technicians and complete inspection system

• ENTERPRISES CERTIFICATES
